EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dennis Haase on December 7, 2004.

The application has been amended as follows:

In Claim 13 line 22: The term "a warning touch" has been replaced with—

a warning touch;

said standards being made of a pliable material, so as to permit a baseball player to feel contact with said standards without altering the baseball player's swing.

Reasons for Allowance

The prior art does not show or suggest a baseball swing training device having a stand, cross bar and a series of strategically positioned standards, said standards being made of a pliable material and circumscribing an arc that defines the proper position of the bat during the swing.
